Stop funding the aggressors, we will do the rest

Galyna Nesterenko / 24.4.2022

Dear Europe,

We, Ukrainians, really appreciate all your huge help with food, medicines, the reception and accommodation of refugees. We are very grateful for your moral support and concern!

On my own behalf, I express deep gratitude to the people of Germany, Poland, all other countries for the most incredible and humane help to the Ukrainians. I would like to thank European universities for giving a possibility for Ukrainians to continue their studies or scientific work.

But we have one more, very important entreaty to the governments of your countries.

Dear politicians and deputies, you have already seen a lot of videos and pictures about how people are living in Ukraine now. There is no normal life. There are cellars, shelling, "arrivals" of artillery shells, mass graves. Cities are being wiped off the face of the earth. This is actual life of the nation, on whose lands anti-democratic aggressor has come.

Stop financing Russia's aggression towards Ukrainian people!

Every time when you, Europe, pay the Russians for gas, oil, or anything else, - you are financing a war, you are financing Russia's aggression towards Ukrainian lands and Ukrainian people.

Stop it, please. After all, this is financing for not only for murders, but also for Russian attacks on the European values of freedom and democracy.

Dear Europe, we will be very grateful to you, and we promise not to let the Nazis go further. But you just ... stop paying them.
